Profile

Software developer with more than 10 years of experience in many different programming languages, specializing in iOS development for over 6 years. In addition to my technical expertise, I have a strong interest in design and creating intuitive user experiences.

Experience

[Cue Health](#) - San Diego, CA, United States (Remote)

March 2023 - June 2024

Senior Mobile Software Development Engineer, iOS

Cue Health is a healthcare tech company providing diagnostic tests and telehealth via its platform, I am part of the [mobile app](#) development team where I enhance user experience and functionality. I actively develop new features and address bug fixes, leveraging advanced technologies such as **VIPER**, **MVVM**, **GraphQL**, **Shopify**, **MongoDB**, and **Realm** to ensure reliable and scalable app performance.

[FLO Mağazacılık](#) - Bağcılar, İstanbul, Türkiye (Remote)

Aug 2021 - March 2023

Senior iOS Developer

FLO Mağazacılık, serving over 22 countries and specializing in footwear and fashion accessories, is headquartered in Istanbul. As part of a team, I contributed to the upgrade of key e-commerce applications—[FLO](#), [InStreet](#), and [NineWest](#)—from **Objective-C** to **Swift**, enhancing functionality and user experience. My role also involved developing proficiency in **RxSwift**, **SwiftLint**, and **SwiftUI**, ensuring robust and user-friendly mobile applications.

[PixelPlus](#) - Beşiktaş, İstanbul, Türkiye (Hybrid)

Dec 2020 - Aug 2021

iOS Developer

PixelPlus, a software agency that serves various industries including **FinTech**, collaborates with major Turkish banks like [Garanti BBVA](#) and [Akbank](#). I played a role in enhancing and adding new features to multiple projects, utilizing **RxSwift**, **Reactive Programming**, and **SwiftUI** to improve functionality and user experience.

[ElephantApps](#) - Ataşehir, İstanbul, Türkiye (Remote)

Jun 2020 - Nov 2020

iOS Developer - 6 Months Contract

ElephantApps, a software company that develops mobile, web, and server applications with a focus on user experience, engages in various client projects. I worked on project-based developments for [AxaFit](#), a fitness and health app, utilizing **Dependency Injection**, **UIKit**, and **Programmatic UI** to enhance app functionality and user engagement.

[Pwin Labs](#) - Sarıyer, İstanbul, Türkiye (Hybrid)

Nov 2019 - Jun 2020

iOS Developer

Pwin Labs, a startup, offered a dynamic work environment where I contributed to the development of PQuiz, a live trivia show app hosted daily and available for free on both the App Store and Google Play. My role focused on integrating **REST APIs** and employing robust **version control** practices using **Git** to ensure application stability and streamlined updates.

[BT & Partners Group](#) - Tallinn, Estonia (Remote)

Nov 2018 - Apr 2019

iOS Developer · Erasmus+ Internship

BT & Partners Group, an Estonian startup, provided a dynamic environment where I engaged in various iOS projects during my short-term Erasmus+ internship. I focused on integrating **REST APIs**, utilizing Git for version control, and applying **object-oriented programming (OOP)** principles to develop robust mobile applications.

[Korkut Ata University](#) - Osmaniye, Türkiye (On-site)

Apr 2017 - Sep 2018

iOS Developer · IT Specialist

During my studies at Korkut Ata University, I worked part-time in the IT Department where I developed the university's official mobile app. As an IT Specialist and iOS Developer, I utilized technologies such as **Swift**, **UIKit**, **Xcode**, **Json**, and **API** to enhance app functionality and user experience.

[Arcelik](#) - Adana, Türkiye (On-site)

Oct 2013 - Jun 2014

Technician · High School Internship

Arçelik, recognized as one of Turkey's leading technology companies, focuses on manufacturing and marketing household appliances. During my nine-month high school internship in Arçelik's IT department, I gained practical experience in various technical roles, supporting the development and maintenance of technological solutions.

Languages & Skills

Skills & Keywords: Xcode, Firebase, Postman, Sourcetree, Git, Jira, Figma, Android Studio, Visual Studio, SwiftLint, Trello, Zeplin, PagerDuty, Datadog, MongoDB Compass, Shopify

Education

[Korkut Ata University](#)

2014 - 2019

Management Information Systems

During my time at Korkut Ata University from 2014 to 2019, I studied Management Information Systems and got to dive into everything from programming in Visual Basic and Delphi to marketing, design, and automation. It was a great mix of tech and business that really rounded out my skills.

[Adana Vocational and Technical Anatolian High School](#)

2010 - 2014

Industrial Automation

At Adana Vocational and Technical Anatolian High School, where I studied Industrial Automation, I learned the basics of software, design, and industrial automation. This education provided me with a solid foundation in both the technical and practical aspects of automation technologies.
